

PERIODONTITIS: LONG-TERM STUDIES

Periodontitis and all-cause mortality in 60- and 66-year-old individuals: a 23-year prospective cohort study	Acta Odont Scand 2026; 85: 495-502
Correlation between periodontal parameters at teeth and implants: An up to 20-year long-term observational cohort study in periodontitis patients	J Dent 2026; online 19 June: 106848
Factors influencing tooth loss over 9–11 years in young individuals with periodontitis	J Periodontol 2026; 97(2): 207-219
Ten-year survival of posterior teeth in patients with periodontitis following systematic periodontal treatment: A systematic review and meta-analysis using only open-access evidence and analytic tools [free to members on Science Direct. If you do not have a login email library@bda.org to request one]	J Dent 2026; 165: 106299
Effect of single-visit full-mouth non-surgical therapy and risk factor analysis on long-term periodontal treatment outcomes: A retrospective study	Clin Oral Investig 2025; 29 (6): 333
Long-term preservation and maintenance of periodontally compromised teeth: a narrative literature review, recommended approach, and case series [Review] [can be accessed on DOSS free by logging in on this page]	Quintessence Int 2025; 56 (3): 178-185
Long-term changes in gingival recessions and their impact on oral health-related quality of life in patients under supportive periodontal therapy: a bidirectional cohort study [can be accessed on DOSS free by logging in on this page]	Quintessence Int 2025; 56 (3): 186-196
Influence of mobility on the long-term risk of tooth extraction/loss in periodontitis patients. A systematic review and meta-analysis	J Periodont Res 2025; 59 (6): 1047-1061
Does periodontitis increase the risk for future cardiovascular events? Long-term follow-up of the PAROKRANK study	J Clin Periodont 2025; 52 (1): 16-23
Hypertensive patients with periodontitis as predictors of cardiovascular and all-cause mortality: a long-term cohort study [can be accessed on DOSS free by logging in on this page]	Clin Oral Investig 2024; 28 (11): 1-9
Periodontal pockets: predictors for site-related worsening after non-surgical therapy – a long-term retrospective cohort study	J Clin Periodont 2024; 51 (6): 660-690
Long-term exposure to ambient fine particulate matter and periodontitis: An observational study using nationally representative survey data [Accessible from the Wiley link on this page]	J Clin Periodontol 2024; 51 (5): 596-609
Five-year radiological findings from a randomized controlled trial of four periodontitis treatment strategies	Eur J Oral Sci 2023; 131(5): 1-10

PERIODONTITIS: LONG-TERM STUDIES

Tooth retention and clinical and radiographic long-term results among patients treated with full-mouth LaserAssisted New Attachment Procedure (LANAP): a case series [can be accessed on DOSS free by logging in on this page]	Int J Periodont Restor Dent 2023; 43 (2): 181-191
Long-term stability of regenerative periodontal surgery and orthodontic tooth movement in stage IV periodontitis: 10-year data of a retrospective study	J Periodontol 2023; 94(10): 1176-1186
Long term comparison of the prognostic performance of PerioRisk, periodontal risk assessment, periodontal risk calculator, and staging and grading systems	J Periodontol 2022; 93(1): 57-68
Treatment of localized aggressive periodontitis alters local host immunoinflammatory profiles: A long-term evaluation [Accessible from the Wiley link on this page]	J Clin Perio 2021; 48 (2): 237-48
Association between periodontitis treatment outcomes and peri-implantitis: A long-term retrospective cohort study [Accessible from the Wiley link on this page]	Clin Oral Implants Res 2021; 32(6): 721-731
Retrospective long-term analysis of tooth loss over 20 years in a specialist practice setting: Periodontally healthy/gingivitis and compromised patients	J Clin Periodontol 2021; 48(10): 1356-1366
Longevity of teeth and dental implants in patients treated for chronic periodontitis following periodontal maintenance therapy in a private specialist practice: a retrospective study with a 10-year follow-up [can be accessed on DOSS free by logging in on this page]	Int J Periodont Restor Dent 2021; 41(1): 89-98
Long-term periodontitis treatment costs according to the 2018 classification of periodontal diseases [free to members on Science Direct. If you do not have a login email library@bda.org to request one]	J Dent 2020; (99): 103417
Long-term tooth retention in periodontitis patients in four German university centres [free to members on Science Direct. If you do not have a login email library@bda.org to request one]	J Dent 2020; (94): 103307
Development of a nomogram for the prediction of periodontal tooth loss using the staging and grading system: A long-term cohort study [Accessible from the Wiley link on this page]	J Clin Periodontol 2020; 47(11): 1362-1370
Turned surface implants in patients treated for periodontitis: Preliminary 10- to 20-year results of a long-term cohort study [can be accessed on DOSS free by logging in on this page]	Int J Oral Implantol 2020; 13(2): 173-184
Retrospectively analysed tooth loss in periodontally compromised patients: Long-term results 10 years after active periodontal therapy- Patient-related outcomes	J Periodont Res 2020; 55(6): 946-958

PERIODONTITIS: LONG-TERM STUDIES

Using periodontal staging and grading system as a prognostic factor for future tooth loss: A long-term retrospective study [Accessible from the Wiley link on this page]	J Periodontol 2020; 91(4): 454-461
Long-term prognosis of severely compromised teeth following combined periodontal and orthodontic treatment: a retrospective study [can be accessed on DOSS free by logging in on this page]	Int J Periodont Restor Dent 2020; 40(1): 95-102
Long-term survival and maintenance efforts of splinted teeth in periodontitis patients [free to members on Science Direct. If you do not have a login email library@bda.org to request one]	J Dent 2019; (80): 49-54
Five-year results of nonsurgical treatment to manage severe generalized aggressive periodontitis [can be accessed on DOSS free by logging in on this page]	Quintessence Int 2019; 50 (2): 104-113
Twenty years later: Oral health-related quality of life and standard of treatment in patients with chronic periodontitis [Accessible from the Wiley link on this page]	J Periodontol 2019; 90(4): 323-330
Management of localized aggressive periodontitis: a 30-year follow-up [can be accessed on DOSS free by logging in on this page]	Quintessence Int 2018; 49 (8): 615-624
Moderate- to long-term therapeutic outcomes of treated aggressive periodontitis patients without regular supportive care [can be accessed on DOSS free by logging in on this page]	J Periodont Res 2018; 53(3): 324-333
Outcomes after 25 years of periodontal treatment and maintenance of a patient affected by generalized severe aggressive periodontitis [can be accessed on DOSS free by logging in on this page]	Int J Periodontics Restorative Dent 2018; 38 (3): 347-354
12 years' preservation of maxillary permanent incisors with cervical root fractures adjacent to aggressive periodontitis: report of a case [can be accessed on DOSS free by logging in on this page]	Quintessence Int 2018; 49 (7): 543-548
Long-term tooth retention in chronic periodontitis – results after 18 years of a conservative periodontal treatment regimen in a university setting [Accessible from the Wiley link on this page]	J Clin Periodontol 2017; 44(2): 169-177
Natural history of periodontitis: disease progression and tooth loss over 40 years [Accessible from the Wiley link on this page]	J Clin Periodontol 2017; 44(12): 1182-1191
Tooth loss in generalized aggressive periodontitis: prognostic factors after 17 years of supportive periodontal treatment [Accessible from the Wiley link on this page]	J Clin Periodontol 2017; 44 (6): 612-619
A double-masked randomized clinical trial (RCT) comparing four periodontitis treatment strategies: 5-year clinical results [Accessible from the Wiley link on this page]	J Clin Periodontol 2017; 44(10): 1029-1038

PERIODONTITIS: LONG-TERM STUDIES

Long-term clinical response to treatment and maintenance of localized aggressive periodontitis: a cohort study [Accessible from the Wiley link on this page]	J Clin Periodontol 2017 <u>44</u> (2) 158-168
Age of onset of disease in subjects with severe periodontitis: a 9- to 34-year retrospective study [Accessible from the Wiley link on this page]	J Clin Periodontol 2017; 44(8): 778-783
A randomized double-masked clinical trial comparing four periodontitis treatment strategies: 5-year tooth loss results [Accessible from the Wiley link on this page]	J Periodontol 2017; 88(2): 144-152
Periodontal treatment and maintenance of molars affected with severe periodontitis (DPSI = 4): an up to 27-year retrospective study in a private practice [can be accessed on DOSS free by logging in on this page]	Quintessence Int 2017; 48(5): 391-405
Disease progression in aggressive periodontitis patients. A retrospective study [Accessible from the Wiley link on this page]	J Clin Periodontol 2016 <u>43</u> (6) 531-537
Nonsurgical periodontal therapy to treat a case of severe periodontitis: a 12-year follow-up [free to members on Science Direct. If you do not have a login email library@bda.org to request one]	J Am Dent Assoc 2015; 146 (8): 631-637
Clinical case report on treatment of generalized aggressive periodontitis: 5-year follow-up [can be accessed on DOSS free by logging in on this page]	Int J Periodont Rest Dent 2015 <u>35</u> (1) 395-400
Periodontal pathogens and associated in aggressive periodontitis: result 5-17 years after active periodontal therapy [Accessible from the Wiley link on this page]	J Clin Periodontol 2014 <u>41</u> (7) 662-672
Long-term onlay graft volume maintenance in aggressive periodontitis patients [can be accessed on DOSS free by logging in on this page]	Int J Periodont Rest Dent 2011 <u>31</u> e71-e79
Combined periodontal and orthodontic treatment in a patient with aggressive periodontitis: a 9-year follow-up report [can be accessed on DOSS free by logging in on this page]	World J Orth 2010 <u>11</u> (3) 291-7
