Pharmacological targets for periodontitis: A systematic review of drug-target Mendelian randomisation studies	J Periodontal Res 2026; 61(8): 898-928
Comparison of hyaluronic acid versus enamel matrix derivative in the treatment of intrabony periodontal defects: a systematic review and meta-analysis	Oral Health Prev Dent 2026; 24: 865-875
Clinical and radiographic evaluation of local application of insulin versus hyaluronic acid using resorbable collagen sponge in management of periodontal intra-bony defects: a pilot randomized controlled clinical trial	Clin Oral Investig 2026; 30(8): 350
Contribution of resveratrol on periodontal disease control and treatment: A systematic review	Oral Health Prev Dent 2026; 24: 499-508
Multi-omics integration reveals the genetic mechanisms of periodontitis and predicts therapeutic drugs	Int Dent J 2026; 76(4): 109678
From the proteome to therapeutics: a multi-database approach to drug discovery in periodontitis-an exploratory pilot study	J Clin Periodontol 2026; 53(7): 990-1004
Rapamycin's role in periodontal health and therapeutics: a scoping review [can be accessed on DOSS free by logging in on this page]	JDR Clin Trans Res 2026; 11(3): 357-367
The effect of adjunctive systemic antibiotics on the outcomes of non-surgical periodontal therapy: a retrospective cohort study	J Clin Periodontol 2026; 53(5): 719-734
Locally delivered simvastatin and rosuvastatin in the treatment of chronic periodontitis: A systematic review and meta-analysis	Am J Dent 2026; 39(3): 125-133
Melatonin alleviates periodontitis by suppressing neutrophil extracellular traps-dependent neutrophil recruitment [Accessible from the Wiley link on this page]	J Clin Periodontol 2026; 53(4): 630-643
Proteome-guided drug target discovery for periodontitis	J Clin Periodontol 2026; 53(1): 127-136
Hyaluronic acid: A novel approach in regenerative/reconstructive periodontal therapy? [Review]	Periodontol 2000 2025; 99(1): 81-108
Effects of hyaluronic acid as an adjunct to nonsurgical treatment of periodontal pockets: a narrative review. [Review] [can be accessed on DOSS free by logging in on this page]	Quintessence Int 2026; 57(1): 6-14
Adjunctive antimicrobials and host modulators in nonsurgical periodontal therapy: Focus on patients with diabetes and smokers [Accessible from the Wiley link on this page]	Perio 2000 2025; online 14 Nov doi.org/10.1111/prd.70020

Clinical and biochemical efficacies of green tea and white tea extract mouthwashes in the management of plaque-induced gingivitis [Accessible from the Wiley link on this page]	Int J Dent Hyg 2025; 23(3): 482-490
Adjunctive use of hyaluronic acid in non-surgical periodontal therapy: A systematic review and meta-analysis	J Dent 2025; 155: 105613
Clinical efficacy of adjunctive use of coenzyme Q10 in non-surgical periodontal treatment: A systematic review [Accessible from the Wiley link on this page]	Eur J Oral Sci 2025; 133(2): e70002
Weighing up the potential of "superfoods" compounds of green tea or turmeric as adjuncts in comparison to established therapeutical approaches for periodontal disease	Clin Oral Investig 2025; 29(1): 61
Therapeutic irrigant procedures for treating apical periodontitis (TIPTAP): A triple-blinded parallel-group randomized controlled phase I/II trial	Int Endod J 2025; 58(7): 965-990
Patient-reported outcomes following systemic antibiotic adjunct to nonsurgical treatment of periodontitis: A randomized controlled clinical trial	Clin Exp Dent Res 2025; 11(1): e70076
Exploring the molecular mechanisms of Fisetin in treating periodontitis through multiomics and network and network pharmacology	Int Dent J 2025; 75(3): 2204-2221
Randomized controlled trials assessing exposure frequency effects of stannous fluoride on gingivitis (request using https://www.smartsurvey.co.uk/s/PJHMV/)	JDR Clin Translational Res 2025; 10(2): 124-134
Anti-inflammatory and antimicrobial efficacy of coconut oil for periodontal pathogens: a triple-blind randomized clinical trial	Clin Oral Investig 2025; 29(4): 182
Local application of 0.8% hyaluronic acid gel as an adjunct to minimally invasive nonsurgical treatment of periodontal intrabony defects—A randomized clinical trial	J Periodont Res 2025; 60(3): 215-225
Clinical and radiographic evaluation of melatonin and chitosan loaded nanoparticles in the treatment of periodontal intra-bony defects: A randomized controlled clinical trial	Clin Oral Investig 2025; 29(5): 280
Antioxidant, antibacterial, and systemic efficacy of sesame oil pulling in periodontitis and diabetes management [can be accessed on DOSS free by logging in on this page]	Quintessence Int 2025; 56(3): 198-205
A novel therapeutic calcium peroxide loaded injectable bioadhesive hydrogel against periodontitis	Int Dent J 2025; 75(1): 352-362

In silico docking of medicinal herbs against P. gingivalis for chronic periodontitis intervention	Int Dent J 2025; 75(2): 1113-1135
Systemic azithromycin as an adjunct to non-surgical subgingival instrumentation in the treatment of Stage III/IV, Grade C periodontitis: 12-month clinical, microbiological and cytokine results of a randomised controlled trial	J Clin Periodontol 2025; 52(5): 666-680
Subgingival 0.75% boric acid vs 1% povidone-iodine adjunctive to subgingival instrumentation in stage II and III periodontitis-A double-blind randomized clinical trial [Accessible from the Wiley link on this page]	Int J Dent Hyg 2025; 23(1): 133-142
Classification and bibliometric analysis of hydrogels in periodontitis treatment: Trends, mechanisms, advantages, and future research directions. [Review] [free to members on Science Direct. If you do not have a login email library@bda.org to request one]	Dent Mater 2025; 41(1): 81-89
Adjunctive use of hyaluronic acid in the treatment of gingival recessions: a systematic review and meta-analysis	Clin Oral Investig 2024; 28(6): 329
Effectiveness of herbal oral care products in reducing dental plaque and gingivitis: an overview of systematic reviews	Can J Dent Hyg 2024; 58(2): 120-134
Effects of local and systemic metronidazole as adjunctive treatment in chronic periodontitis patients	Clin Exp Dent Res 2024; 10(6): e70050
Decision-making on systemic antibiotics in the management of periodontitis: A retrospective comparison of two concepts	J Clin Periodontol 2024; 51(9): 1122-1133
The impact of systemic administration of polyphenols on periodontitis associated with diabetes mellitus: a systematic review	Acta Odontol Scand 2024; 83: 238-248
Effect of sodium hypochlorite gel on bacteria associated with periodontal disease	Clin Oral Investig 2024; 28(3): 190
Repeated local delivery of hyaluronic acid gel as adjunctive treatment of residual pockets in periodontitis patients undergoing supportive periodontal care. A randomized controlled clinical trial	Clin Oral Investig 2024; 28(2): 158
Supra- and sub-gingival instrumentation of periodontitis with the adjunctive treatment of a chloramine – a one-year randomized clinical trial study	Acta Odont Scand 2024; 83: 1-6
Systematic review and meta-analysis of randomized controlled trials evaluating the efficacy of non-surgical periodontal treatment in patients with concurrent systemic conditions	Clin Oral Invest 2024; 28 (1): 21

Effect of antibiotics as an adjuvant to subgingival instrumentation on systemic inflammation in patients with periodontitis: a randomized clinical trial study [can be accessed on DOSS free by logging in on this page]	Quint Int 2023; 54 (5): 460-471
Added effect of 1% topical alendronate in intra-bony and inter-radicular defects as part of step II periodontal therapy: a systematic review with meta-analysis and trial sequential analysis	BMC Oral Health 2022; 22: Art 15
The impact of smoking on non-surgical periodontal therapy: A systematic review and meta-analysis [Accessible from the Wiley link on this page]	J Clin Perio 2021; 48 (1): 61-76
Sustained-release delivery of antimicrobial drugs for the treatment of periodontal diseases: Fantasy or already reality? [Accessible from the Wiley link on this page]	Periodontology 2000; 2020; 84: 176-87
Effect of nonsurgical periodontal therapy on haematological parameters in grades B and C periodontitis: an exploratory analysis	Clin Oral Investig 2020; (24): 4291-4299
Doxycycline encapsulated in beta-cyclodextrin for periodontitis: a clinical trial	Braz Oral Res 2020; (33): e112
Efficacy of systemic antibiotics in nonsurgical periodontal therapy for diabetic subjects: a systematic review and meta-analysis	Int Dent J 2018; 68: 207-20
The use of systematic antibiotics in the treatment of refractory periodontitis	Tandlaegebladet 2017; 121(3): 222-231
Azithromycin as an adjunct to non-surgical periodontal therapy: a systematic review	Aust Dent J 2017; 62: 14-22
Efficacy of local and systemic antimicrobials in the non-surgical treatment of smokers with chronic periodontitis: a systematic review [Accessible from the Wiley link on this page]	J Periodontol 2016; 87 (11): 1320-1332
Non-surgical periodontal treatment in conjunction with 3 or 7 days systemic administration of amoxicillin and metronidazole in severe chronic periodontitis patients: a placebo-controlled randomized clinical study [Accessible from the Wiley link on this page]	J Clin Periodontol 2016; 43 (9): 767-777
Clinical factors influencing the efficacy of systemic moxifloxacin in the therapy of patients with generalized aggressive periodontitis: a multilevel analysis from a clinical trial	Glob J Health Sci 2016; 8 (3): 80-88
Relative effectiveness of azithromycin in killing intracellular porphyromonas gingivalis	Clin Experimental Dent Res 2016; 2 (1): 35-43

Clinical and microbiologic evaluation of scaling and root planing per quadrant and one-stage full-mouth disinfection associated with azithromycin or chlorhexidine: a clinical randomized controlled trial [Accessible from the Wiley link on this page]	J Periodontol 2015; 86 (12): 1340-51
Is progression of periodontitis relevantly influenced by systemic antibiotics? a clinical randomized trial	J Clin Periodontol 2015; 42: 832-42
Short-term effects of 2% atorvastin dentifrice as an adjunct to periodontal therapy: a randomized double-masked clinical trial [Accessible from the Wiley link on this page]	J Periodontol 2015; 86 (5): 623-30
Systemic antibiotics in the treatment of periodontitis [Accessible from the Wiley link on this page]	Periodontology 2000 2015; 67 (1): 131-86
Regenerative effect of azithromycin on periodontitis with different levels of gingival inflammation: three case reports	Aust Dent J 2014; 59: 245-51
Providone-iodine gel and solution as adjunct to ultrasonic debridement in nonsurgical periodontitis treatment: An RCT pilot study [can be accessed on DOSS free by logging in on this page]	Quint Int 2014; 45 (4): 281-90
Simvastatin local drug delivery in smokers with chronic periodontitis: a randomized controlled trial	Aust Dent J 2013; (58): 156-162
Adjunctive daily supplementation with encapsulated fruit, vegetable and berry juice powder concentrates and clinical periodontal outcomes: a double-blind RCT	J Clin Periodontol 2012 39 62-72
Long-term efficacy of subantimicrobial-dose doxycycline as an adjunctive treatment to scaling and root planing: a systematic review and meta-analysis [Accessible from the Wiley link on this page]	J Periodontol 2011 82 (11) 1570-1581
Clinical and microbiological effects of azithromycin in the treatment of generalized chronic periodontitis: a randomized placebo-controlled clinical trial [Accessible from the Wiley link on this page]	J Clin Periodontol 2011 38 (9) 838-846
